MICHAEL FRIEDHOFER
PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a push button device including an annular translucent member fixed to a body of a device; a pushbutton positioned in the annular translucent member; a light emitter for illuminating the translucent member; a convex semi-cylindrical surface positioned on a side of a space between the light emitter and the annular translucent member; and at least one photoreflective sheet adhered to the convex semi-cylindrical surface where the axis of the complete cylindrical surface extends in a direction substantially parallel to a direction along the light emitter and the annular translucent member and push button. The prior art also does not teach or suggest a push button device in which the annular translucent member surrounds a push button formed by a button body made of a translucent resin and an opaque cover cap in which the button body, annular translucent member, and the light emitter are positioned so that at least a part of the light rays emitted from the light emitter is incident on the annular translucent member through the button body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A. Friedhofer whose telephone number is 571-272-1992. The examiner can normally be reached on Mon-Fri 6:00 - 2:30.
